

With a

Health Savings Account, you'll really benefit.

1 Lower taxes

HSA contributions you make are pre-tax. Natus contributions to your HSA are tax-free. Investment earnings and withdrawals for medical expenses are not taxed.

2 Natus contributes free \$\$\$ to your HSA

\$1,000 per year for single/
spouse and \$1,500 per year
for children / family

3 An HSA is easy to use

Just swipe your debit card at the doctor and funds are automatically deducted from your HSA.

4 Use your HSA for medical expenses

Like copays, coinsurance, deductibles for medical, dental or vision plans, even prescriptions. There are hundreds of HSA-eligible medical expenses.

Note: Most covered services under the HDHP plan are subject to the deductible.

5 Contribute to your HSA up to \$4,150 or \$8,300

per year depending on the medical coverage level you select.

6 The HSA is yours to keep even if you change jobs. And there's no use-it-or-lose-it rule like Flexible Spending Accounts. You can also save money tax-free for retirement!
